

Know your costs. Save on care. Get rewarded.

It's smart, and easy, with Priority Health.

Three things happen every time you use Cost Estimator to shop procedures, lab tests or office visits.

1 | You see your costs before you receive care.

Before you schedule your next appointment, search for the medical service you need in Cost Estimator. Here's how:

- Scan the QR code with your phone's camera to log in or sign up for a Priority Health member account to access Cost Estimator. 
- Enter a procedure name and search for locations where that service is available. From the location pricing list, select a facility to see your personal out-of-pocket estimate.
- You can also compare costs at facilities in your network and in some cases, narrow your search by selecting a specific provider.

2 | You save on procedures by choosing the best value options.

Cost Estimator has saved over \$13 million in health care costs since it launched over four years ago.

3 | You may qualify to earn a Visa rewards card of \$50 to \$200.

That's right. Many common procedures and tests are included in our Priority Rewards program, where we'll send you a reward for being a smart shopper. Here's how:

- In your Cost Estimator search, choose a procedure or facility with a green trophy beside it. It looks like this: 
- Receive that medical service at that facility within six months of your search.
- Wait about three weeks for your Visa rewards card in the mail.
- Use it for all kinds of items including medical services, health and wellness services, groceries and more.

Here's a breakdown of qualifying procedures that earn you a Visa rewards card.

Procedure type	Procedure	Reward
Bone and joint	Carpal tunnel surgery	\$100
Bone and joint	Anterior cruciate ligament knee surgery (ACL)	\$200

Next time you need a medical service, remember to use Cost Estimator—it can save and earn you money. If you have any questions about Cost Estimator or PriorityRewards, call the number on the back of your member ID card.

You can also use Cost Estimator to price your prescription medications.

- Before visiting the pharmacy, search for your prescription.
- The price of your prescription can vary between pharmacies. Be sure to compare the cost between locations so you can find the best deal for you.
- Bonus: Cost Estimator provides the most accurate price based on your plan, you don't need to tack down coupons or use third party discount companies.
